

AGRIFLAT PU Poliurethane layflat water hose

Technical specifications:

The hose was developed for universal industrial and agricultural use. It's extremely strong and can be coiled. The material of the hose is poliurethane.

It's suitable for air, oil and petrol and moderately acid and alkali resistant. It has an extreme bearing capacity thanks to the tensile strength of the fabric insertion.

It's ozone and ageing resistant.

WP: 14 bar

max. WP: 17 bar

BP: 42 bar

Temperature: -50°C / +75 °C

Construction: Poliéter Poliuretan, fekete vagy zöld (aktuális készletből és gyártástól függően)

Coil length: 100 és 200 m

Certain diameters are available from stock. Meantime, we hold the right of selling the stock in products.
