

AGRIFLAT PU TRAVELLER Poliurethane layflat water hose

Technical specifications:

The hose was developed especially for linear and pivot watering systems in agriculture. It's extremely strong and can be coiled. The material of the hose is poliurethane. The hose has very good flexibility.

It's suitable for air, oil and petrol and moderately acid and alkali resistant. It has an extreme bearing capacity thanks to the tensile strength of the fabric insertion.

It's ozone and ageing resistant.
