

## Closures with TW/PTFE lining Hydrochloric acid resistant

### Technical specifications:

It's a DIN TW standard coupling with Teflon coating, which is persistent against the kind of chemicals and acids, which can attack stainless steel (for example Hydrochloric acid, ferric chloride).

We are able to give PTFE, ETCFE, FEP or PFA coating for almost any unique hose tail, adapter or coupling.

The PTFE coating can be virgin (white, translucent) or electrically conductive (black).

The product is a permanent storage lots. Meantime, we hold the right of selling the stock in products.

| Size  | Type         | Title       | Lining       | Article number |
|-------|--------------|-------------|--------------|----------------|
| DN 80 | TW VB80 PTFE | PLUG for MK | PTFE natural | 124006         |
| DN 50 | TW MB50 PTFE | CAP for VK  | PTFE natural | 124005         |
| DN 80 | TW MB80 PTFE | CAP for VK  | PTFE natural | 124012         |
| DN 50 | TW VB50 PTFE | PLUG for MK | PTFE natural | 124007         |
